A. Robinson, vice-president of Lawson's, has sent out a thank you message to his many customers and friends who have made it possible for the store to continue to be the leading store of its kind in the area.

Many new lines of merchandise have been added, Robinson said, including Sampsonite luggage, Trifari jewelry, Polaroid cameras, Omega watches, Zenith Hi-Fidelity record players, plus their complete line of cameras, jewelry and merchandise.

Lawson's is offering a 24-inch Mama Doll for \$1 to each customer who makes a purchase of \$14.95.

Robinson has invited all to come in and open an account, reminding that it's nearly Christmas time again. They feature "easy credit or lay-away plans."

New life for tired kitchens! — the MODERN LOOK

You'll cook better, too, on a MODERN automatic gas range

and MODERN features

- Automatic temperature control: Dial the exact oven temperature you want. It won't vary. Fancy oven dials are a "breeze" to bake.
- Automatic clock control lets you bake and roast while you do your housework. The clock control turns your oven on and off... automatically.
- Smokeless broiling. Smoke and spatter disappear in the live gas flame. No grime or soot to settle on kitchen walls. You broil with the door closed, too. What's more you enjoy the "flame-kissed flavor" that only gas provides.

The new MAYTAG CP Automatic Gas Range, one of the money CP gas ranges available in this area.

A kitchen doesn't have to show its age. Just watch the heart of your home take a new lease on life. The moment your new automatic gas range is delivered. Its smooth-flowing lines and gleaming finish pep up your kitchen instantly.

After you've taken a good long look, you'll want to start cooking on your new range. And what a pleasure that is. You'll cook with a new-found confidence because your new gas range lets you use all your skill.

Precision-set temperatures for baking and roasting—flexibility of heat control on top burners—and completely automatic lighting and timing are just a few of the things you'll never want to be without.

Tomorrow (or today) would be a good day to see the gleaming new models now on display at dealers' or your Gas Company's showrooms. Your new gas range will cost less than you think...less to buy, install and operate.
